PROFESSIONAL SUMMARY

Full Stack Java Developer, Flutter Developer & Data Analytics Enthusiast with hands-on experience in developing web and mobile applications using Java, Spring Boot, Spring MVC, REST APIs, MySQL, Flutter, Dart, Firebase, HTML, CSS, and JavaScript. Experienced in building scalable backend systems, responsive mobile applications, database-driven solutions, and API integrations. Also familiar with Data Analytics, SQL, data visualization, data cleaning, and analytical problem-solving. Strong understanding of OOP, DBMS, Git/GitHub, and software development workflows, with a focus on developing reliable and user-friendly applications.

TECHNICAL SKILLS

Languages	Java, JavaScript, SQL, HTML5, CSS3
Frontend	React.js, Tailwind CSS, Bootstrap, Responsive Design,
Backend	Node.js, REST APIs, Firebase
Data	MySQL
Tools	Git, GitHub, Render, Netlify, Postman, Figma, VS Code

PROJECTS

Smart College ERP & No-Dues Management System

- * Tech Stack: Flutter, Dart, Firebase, Firestore, Firebase Authentication, Cloudinary
 - Developed a role-based college management application for students, faculty, and administrators.
 - Implemented attendance management, No-Dues verification workflows, authentication, and centralized academic data management.
 - Integrated Firebase services and Cloudinary for scalable data and media management.

Class Management System

- * Tech Stack: React.js, Spring Boot, Java, MySQL, REST API, Axios
 - Built a full-stack class management application with a React.js frontend and Spring Boot backend.
 - Developed RESTful APIs for student, course, and class-related operations with MySQL database integration.
 - Implemented reusable React components, API integration, and structured backend business logic for scalable application development.

Rakshak AI — Emergency & SOS Application

- * Tech Stack: Flutter, Dart, Firebase, Kotlin, Android, Geolocator, Sensors, SharedPreferences
 - Built an emergency-focused mobile application with one-tap SOS, shake detection, voice trigger, and power-button based emergency activation.
 - Implemented automated emergency communication using native Android SMS and calling functionality with Google Maps location sharing.
 - Integrated offline capabilities, emergency contact management, location tracking, siren/flash alerts, and Firebase-based event storage.

EDUCATION

B.Tech, Computer Science & Engineering — Dnyanshree Institute of Engg. & Tech.
2023–2027

CGPA: 7.0 |

HSC (XII) — Ajinkyatara College Shendre, Satara 2023

CERTIFICATIONS & AWARDS

- Fullstack Developer Certification
- Java Advance fundamental in Udemy
- React.js Advance Fundamental Certification Udemy
- **Languages:** English, Hindi, Marathi.
